If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

## DETAILED ACTION

### *Examiner's Amendment*

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew Whitehead (Reg. No. 61989) on 10/29/09.

2. The application has been amended as follows (line numbers cited do not count fully deleted lines):

- In claim 10, at line 9, **insert** – at least one -- after "third layer, the ".
- In claim 11, at line 2, **insert** – at least one -- after "with the ".
- In claim 12, at line 2, **insert** – at least one -- after "wherein the ".
- In claim 12, at line 2, **insert** – hermetically-sealed -- after "part of the ".
- In claim 13, at line 2, **insert** – at least one -- after "between the ".
- In claim 13, at line 2, **insert** – at least one -- after "and the ".
- In claim 13, at line 2, **insert** – at least one -- after "such that the ".
- In claim 13, at line 3, **insert** – at least one -- after "cover the ".
- In claim 14, at line 2, **insert** – Of the at least one -- after "with each ".
- In claim 14, at line 3, **insert** – at least one -- after "covers the ".
- In claim 15, at line 9, **insert** – at least one -- after "via the ".

- In claim 15, at line 12, **insert** – at least one -- after "etching of the ".
- In claim 15, at line 14, **insert** – at least one -- after "periphery of the ".
- In claim 15, at line 23, **insert** – at least one -- after "seal the ". (seal was at the end of line 22)
- In claim 18, at line 2, **delete** "layers" and **insert** – layer and the additional sacrificial layer -- after "after the sacrificial ".
- In claim 18, at line 3, **insert** – the mechanically tensile-stressed -- after "third layer and ".

***Allowable Subject Matter***

3. Claims 10-18 are allowed.
4. The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest a microcomponent comprising all the limitations of claim 10, including a hermetically-sealed microcavity delineated by a cover comprising a first and second layer, a third layer between the first and second layer, a hole in the first layer, an additional microcavity communicating with the first hole, an at least one additional hole being offset with the at least one hole and being sealed by the second layer, an at least one mechanically tensile-stressed layer above the first layer, different from the first and the second layers, the tensile-stressed layer being capable of flexing in a direction of the first layer and reducing a space to be sealed by the second layer; the prior art does not teach or suggest a method of producing of a hermetically-sealed microcavity comprising all the limitations of claim 15, including depositing a first layer,

etching a hole in the first layer, removing a sacrificial layer via the hole to create a microcavity, depositing a second layer to make the microcavity hermetic, depositing an additional sacrificial layer, depositing a third layer, etching an additional hole in the third layer, being offset with respect to the at least one hole, removing the sacrificial layer and the additional sacrificial layer through the at least one additional hole, depositing at least one mechanically tensile-stressed layer, being different than the first and second layers, being capable of flexing in the direction of the first layer and reducing the space to be sealed by the second layer. Claims 11-14 depend from claim 10 and are allowable for the same reasons as claim 10. Claims 16-18 depend from claim 15 and are allowable for the same reasons as claim 15.

The closest prior art are: Bartek (non-patent literature, journal article, cited in applicant's IDS). Bartek has layers with similar hole structures as those described in the claims, but does not include a tensile stressed layer that is capable of flexing in the direction of the first layer and reducing a space to be sealed by the second layer. Also, Fischer (cited in the applicant's IDS, discussed in the previous office action) discloses layers and hole structures similar to those discussed in the claims, but only discloses explicitly that the first layer is tensile stressed. There is no first layer of the cover layer that is then covered by a tensile stressed layer that is capable of flexing in a direction of the first layer and reducing a space to be sealed by the second layer. The first layer as discussed in the previous action is the tensile stressed layer, and there is no reasonable interpretation of Fischer's invention to make any underlying layer the "first layer" of the

cover. There is no reasonable motivation to add such a layer to the invention of Fischer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
